The cablegram is from the company's gent in Yokohama. The City of Rio de aneiro, on which the fugitive sailed from here January 20th, reached Yokohama yesterday—five days overdue. The report that the Japanese Government had refused to arrest the fugitive is believed by the local police to have been a mistake. a phase of the question presented itself ducing interests of the State. The cause that cannot be ignored. The sentiment of of American civilization will not be adhe meeting was unquestionably in favor of restricting Chinese immigration and of ridding the country of Chinese laborers . but it developed, according to statements by representatives of fruit districts, that to do the latter suddenly will work not only hardship, but serious injury to industrial interests. Vacaville is in the midst of a ment against the class that degrades labor rich fruit belt, and the season is not far distant when an immense fruit crop must be gathered, and representatives of the which he is entitled to be relieved. fruit interests assert, in all sincerity, that cannot now be done without Chinese bor. In Tehama county alone there are fully 2,200 Chinese, nearly all of whom are engaged in agricultural pursuits, such as working in vineyards, orchards, vegetable gardens, reclaiming land and the like. Mind you, I am not a lover of the Chinese hut am out a lover of the Chinese hut am out a lover. of the Chinese, but am only discussing that part of the proposition which puts dollars and cents into the business man's pocket or else robs him. Many of the Chinese in Tehana county have large tracts of land which they hold under leases of ten years for the most part. In the majority of instances such landholders. are under contract to develop the land by planting fruit trees, vines and the like, taking as their share half the increase. Many acres under such cultivation have not as yet begun to bear, and of course the lessees have not realized anything from them. In the instances cited can there be any right to drive by public clamor or violence the Chinese from their property? Last week a committee of influential and cool-headed business men from the northern district of the State waited upon Governor Stoneman and informed him of the condition of things, and told him that Butte, Tehama and Colusa counties would suffer enormous losses if the Chinese are going to be driven away just about time for gathering the fruit crop. One gentleman said that nearly \$60,000,000 is the amount of capital represented in vines, crchards and the like in the State, and that to pick and pack the fruit crop requires experts. The most of the crop must be headled during three and the like in the State, and that to pick and pack the fruit crop requires experts. The most of the crop must be handled during three mouths in the year. These gentlemen stated that under the most favorable circumstances it would be simply impossible to replace the present expert Chinese labor in any less time than eight years. I have no doubt they were very well qualified to know and speak positively. I have no doubt that if the Chinese were driven out of Tehama county it would set that county back fully ten years. You cannot suddenly create a vacuum in the matter of skilled labor and at once fill that void with untrained labor without scrious loss. This, you see, is not pro-Chinese talk, but cold calculation of profit and loss.

This was accomplished through bail being furnished by friends of the so-called owner, when he again took possession of his "chattel" and returned her to his vile den in Chinatown. The case

Among other thing, you say that "the Chine an games and lotteries there have never ceased tan games and lotteries there have never ceased operations or been disturbed." This is simply nothing more nor less than a lie, and if you don't know it to be so your ignorance is unpardonable. For the benefit of those who do not know, I will say that I have at this time in my possession two lottery outfits captured in Washington. The Chinamen fought like tigers to avoid capture. Four men took part in the raid, consisting of myself, my Under Sheriff, J. H. Magoffey and Frank Grant. The guilty parties were taken before Justice Hilton about 11 o'clock at night on the day of the arrest, and the trial set. Fifty the day of the arrest, and the trial set. Fifty dollars a head was deposited for their appear ance. At the appointed time all parties were present. C. T. Jones appeared for the defendants, and J. H. Magoffey acting District Attorney. Now, Mr. McClatchy, the above it as true as the leaf of the Bible where your birth stands recorded. Will you admit the falsity of your charges, or insist that you are too closely related to George Washington to tell a lie? You have continued you aspersions by saying: "It is a well-known fact that the Chinese are all ways ready to pay for the privilege of being let."

For all Diseases of the Liver, Kidneys, Stomach and Spleen

This purely vegetable preparation, now so celebrated as a Family
Medicine, originated in the South in
1828. It acts gently on the Bowels
and Kidneys, and corrects the action of the Liver, and is, therefore,
the best preparatory medicine,
whatever the sickness may prove to
be. In all common diseases it will,
unassisted by any other medicine,
effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache and generally tone up the system. Already all the shoe manu the light-fingered gent is welcome to it, facturers, excepting two, have replaced their Chinamen with white help, and it is expected that those two will fall into line a very short time. The same condition being brought about in numerous other industries, and as the pressure from the people in the interior becomes greater and greater, it will have, it is believed, a more powerful influence in displacing Chinese labor than all the Restriction and Congressional Acts that will ever be passed. It is the opinion of the manufacturers who have discharged their Chinese operatives that the move-ment can be made a complete success, if the anti-Chinese sentiment can be thor-oughly kept alive, and if the feeling is sus-

tained that the man or woman who encourages the Chinese by employing them, or by buying their products, is a public enemy and deserves to be known as such by all in the community. ## A Matter of Special Interest!

Up to a very recent date the CHINESE HAD A MONOPOLY of several Pacific Coast Industries, including the manufacture of Slippers, certain grades of Stout and Heavy Shoes, Working Shirts, Overalls, etc., and EVERY MERCHANT ON THE PA-CIFIC COAST, dealing in a general line of goods, found himself OBLIGED TO HANDLE GOODS MADE BY CHINESE LABOR.

## The Agitation on the Chinese Question,

So general for the past few months, has brought about a decided change. The labor employed in the industries mentioned is no longer exclusively Chinese, White Labor having been introduced by many manufacturers.

### It has now been made possible for dealers to avoid buying the products of Chinese labor.

Yesterday our firm placed large orders with several Manufacturers employing White Labor. In some lines, the prices will be no higher; in other cases, our cost is higher, but there will be no advance in the selling prices, and, in a few instances, the increase in cost will necessitate an advance in the selling price, but, in every case, it is expected that the finish will be better, and the workmanship superior.

United States Senate. Washington, February 16th .- A petition of bankers, merchants and lawyers of Savannah, Ga., was presented by Brown, who prayed for the repeal of the Silver Coinage Act. MISCELLANEOUS.

A Great Conflagration
That sweeps away a whole city, starts from a flame so small that a glass of water would extinguish it. In like manner, the most painful and fatal maladies of the throat and lungs ordinarily develop from small beginnings, not diffi-cult of cure if promptly treated with the proper remedy. But their progress is insidious and delay may be fatal. Colds and coughs lead to Laryngitis, Asthma, Bronchitis, Pneumonia, and Consumption. The only medi-cine certain to cure every bronchial and pulmonary affection not absolutely incurable is

Ayer's Cherry Pectoral. During 40 years it has steadily grown in popular estimation, and is now a household reliance in many thousands of families. Parents, whose lives were preserved by AYER'S CHERRY PECTORAL when they were young, are now saving the lives of their children with it. Leading physicians extol its virtues and prescribe it in their practice. Intelligent druggists everywhere report noteworthy cures effected by it, within their personal knowledge. PREPARED BY

BARLEY—There is very little spot trading in feed parcels. Buyers are tew and offerings are light, so that activity is oft of the question just at present. The bulk of receipts of late came to order, being destined for shipment East by rail or steam via Panama. The San Jose yesterday carried away 5,400 ctls in transit to New York by way of the Isthmus. Movement of this character ought to help matters, but there is no apparent improvement. Local business does not increase, and values rather soften than otherwise. The best class of feed will not bring over \$1 30, while a less desirable article drags at \$1 27½ 2 ctl. In Brewing there is no material change, though buyers do not purchase as quickly or as liberally as hereto ore, hoping the situation will shape more favorably for them in the near future. A Boon to the Public.

The Wonderful Cures that are Effected by Dr. Geismardo.—Dr. A. Geismardo, of the Paris University, now a resident of this city at 317 Stockton street, is perhaps one of the most remarkable electricians and magnetic healers of the day. At the age of 12 he discovered his wonderful electrical powers, and began the study of medicine. At 21 he entered the French army as surgeon and was placed in charge of a hospital, but soon afterward abandoned the profession of medicine and entered upon his new career of usefulness as an electric and magnetic healer. After making a tour of Europe he went to Mexico, and received from the highest officials of that country many testimonials of his cures. Entering the Government service as a surgeon, he used his powers both on the soldiers and the rubbic, and in gratitude thereof was awarded the Captain-hip in the National Guard, and also the gold cross of the Legion of Honor. Hearing of the remarkable cures that the Doctor had effected during his short stay in this city, a Call reporter visited his office at 317 Stockton street, corner of Sutter, to satisfy himself as to the genuineness of the mysterious nature of his powers. Dr. Geismardo is a Frenchman by birth. He speaks, English like an Englishman, and is about his thirties. Taking advantage of his offer, the reporter accompanied him in his professional visits. The first patient seen was 6. Sneider, who had been for six months so great a sufferer that he was incapacitated from work. After six visits Mr. Sneider was enabled to attend to his duties.

One of the most remarkable cures was that effected upon Mr. Chatien, who for eight years had been a victim of chronic rheumatism, so that he was unable to walk. He first visited last Wednesday, and when seen Friday aftermoon, his last treatment, he was not only walking, but was strong enough to perform the hardest labor. D. B. Kimball, who, for the past two years, has had rheumatism and inflamm THE "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bring. ing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be dis-tributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories.
